

Huntington Fine Arts

THE PROFESSIONAL STUDIO FOR EXCEPTIONAL ART STUDENTS

Dear Colleague,

We are happy to present our Annual Scholarship Competition. The competition is open to current 7th through 12th graders. It is a great opportunity for students to draw from the nude model or a still life.

Here's how it works: For the first half of the session, the instructors will give the students complete guidance. During the second half, there will be no formal instruction. The drawings from the second half will be an important part of the student's presentation, plus a minimum of three pieces of their artwork (sculptures, paintings, drawings, photographs...), which they must **bring** with them. All artwork must remain at Huntington Fine Arts until the student's personal evaluation with the Director.

SCHOLARSHIP AWARDS ranging from \$100 to \$1,000

Scholarships can be used towards our very successful College Prep Portfolio Program, Spring Session or our Summer Session.

While the competition is in progress, we would like to take the opportunity to invite you, along with the parents of the participants, to a presentation of our school and a discussion of the requirements for college entrance.

Enclosed please find the poster which details the upcoming competition. Please hang the poster as you see fit. Thank you and we look forward to making this a great success for all students!

Sincerely,

Lisa Mack, Director
